

NOTICE OF HAZARDOUS AREA

DEPARTMENT OF NATIONAL DEFENCE

TORPEDO TEST RANGE

Canadian Forces Maritime Experimental and Test Ranges (CFMETR) – Nanoose Bay, BC

The Canadian Forces Maritime Experimental and Test Ranges tests ship and aircraft systems and torpedoes launched by surface vessels, submarines, or aircraft. No explosives are used; however, a hazard exists due to the possibility of the torpedo homing on vessels and then the vessel being struck by the torpedo on its way to the surface.

Testing is usually carried out during daylight hours Monday to Saturday. During testing, area "WG" is "Active". Any vessel within the area will be required to clear or stop on demand from the "Winchelsea Island Control" or any of the range vessels or range helicopter. The positions of these coordinates are clearly marked on the diagram above.

A transit area 1,000 yards north of Winchelsea Island and 1,000 yards east of South Ballenas Island is recommended to enable mariners to transit safely around the active area. It also facilitates unimpeded access to marina facilities in Schooner Cove and Nanoose Bay. The active range area is clearly depicted on CHS charts 3512, 3456 and 3459 by means of pecked lines.

Additional information on active range hours or for safe transit through the area may be obtained from:

- a. Winchelsea Island Control at 250-468-5080 or 1-888-221-1011 (next day's activity only);
- b. CFMETR Range Officer at 250-468-5002 (long range planning);
